

The Cut 'n Sew method of shaping is very useful for machine knitters.

Don't like to shape necklines? Use cut 'n sew!

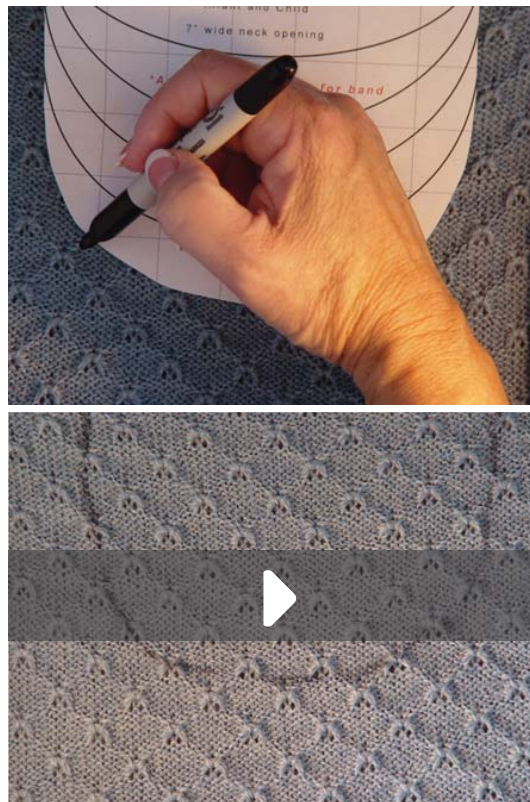

Knitting in pattern, or lace?

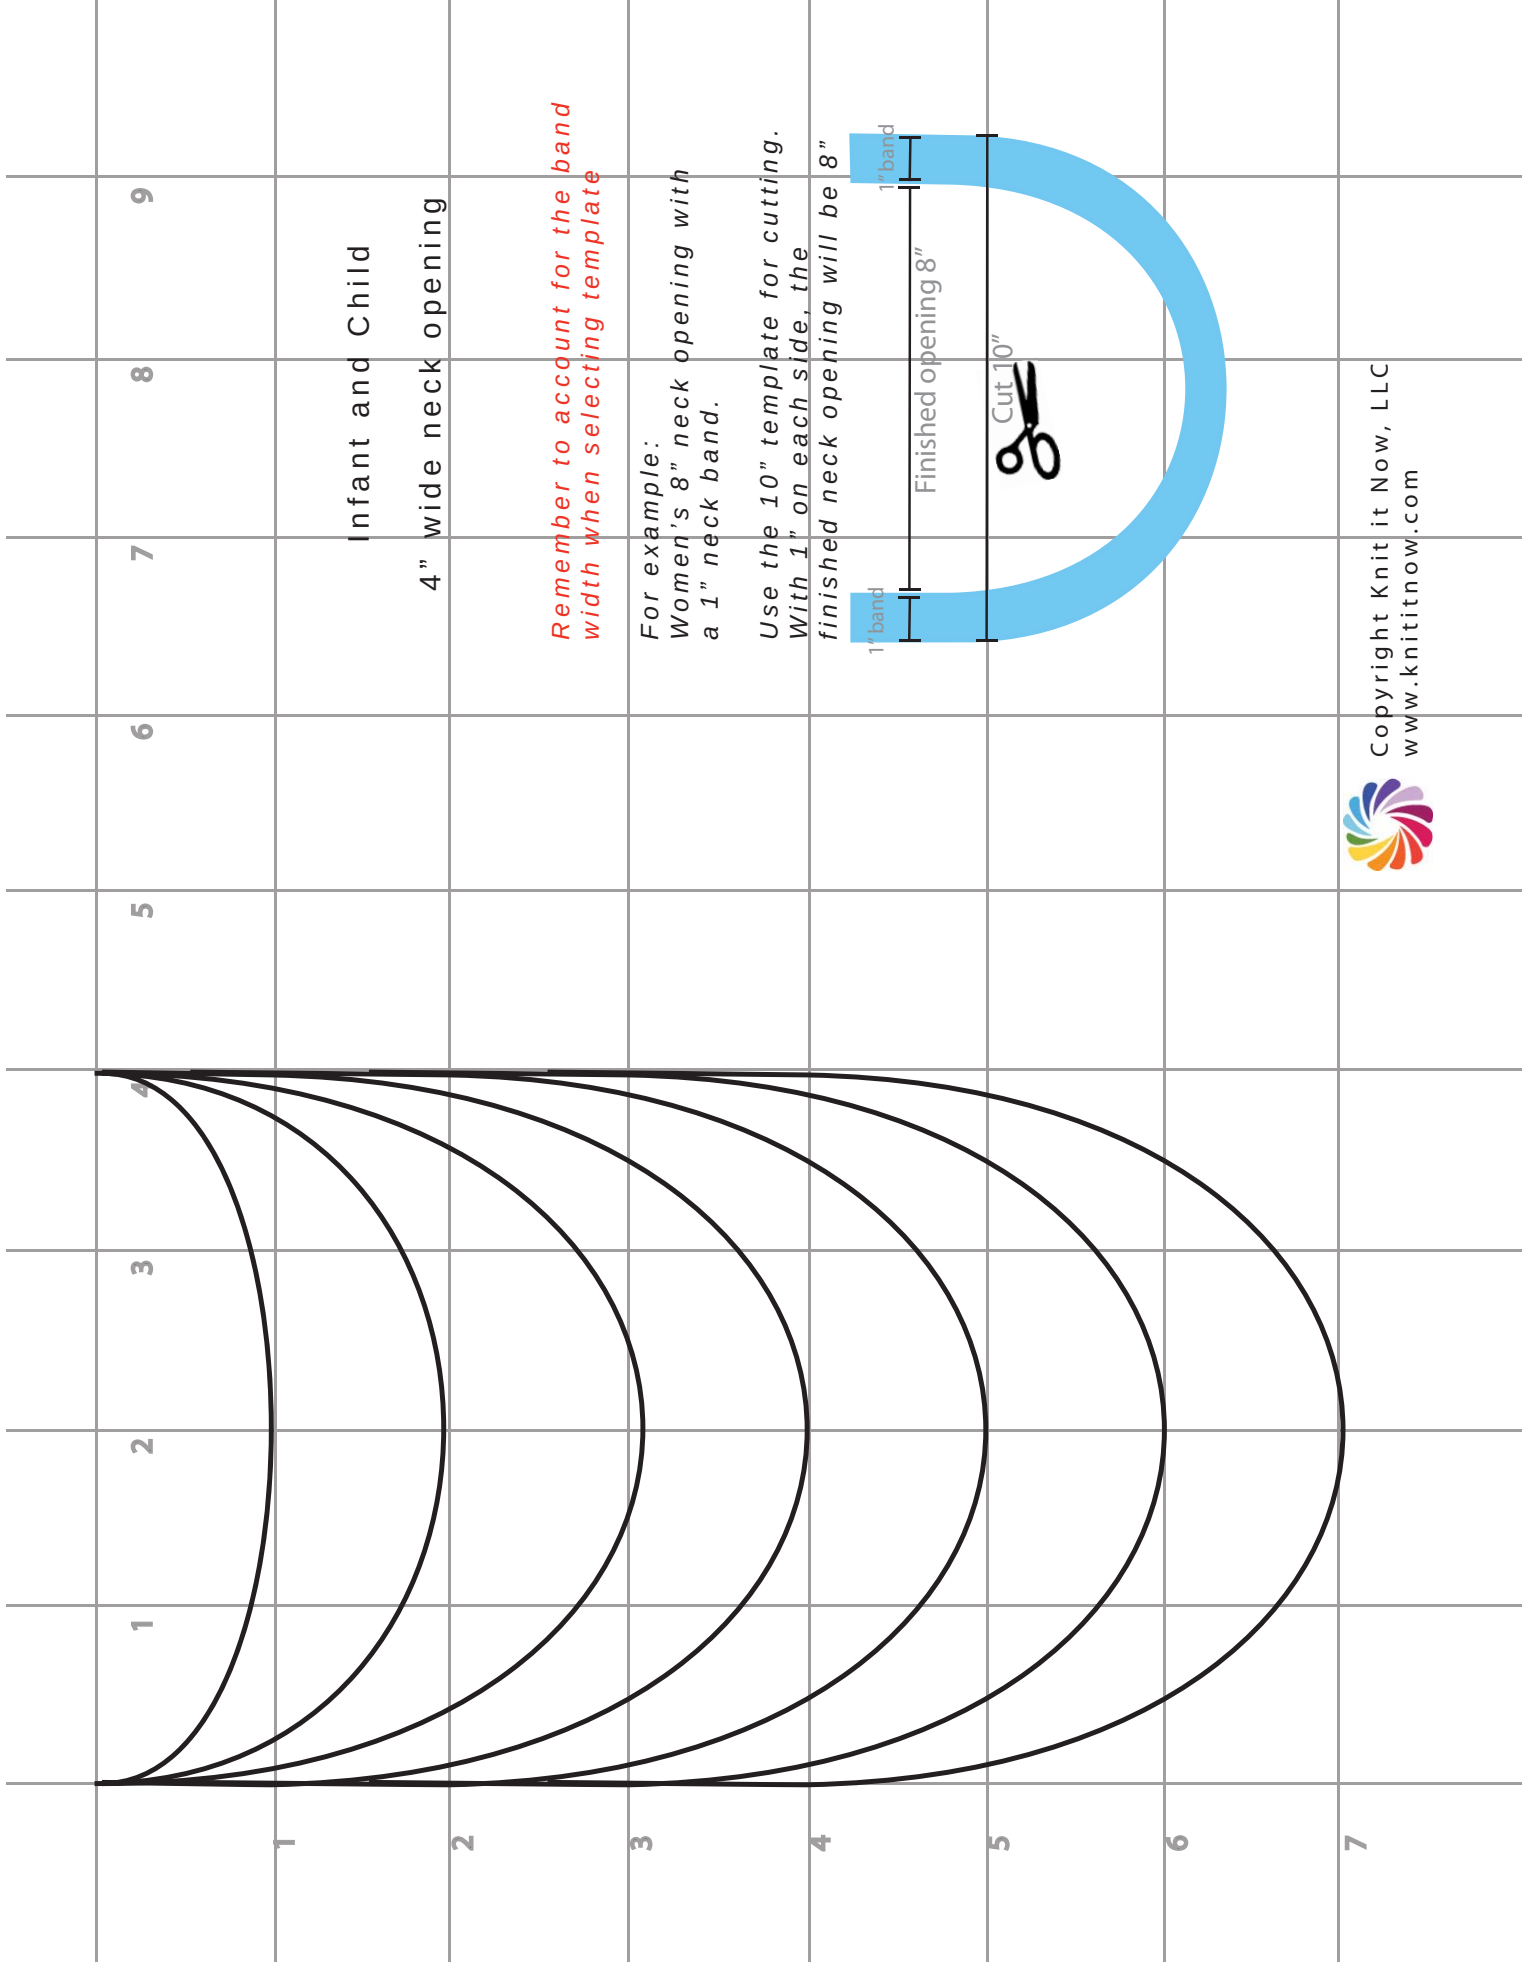

Who wants to be shaping and doing hand manipulation at the same time? Use cut 'n sew!

Prefer to knit yardage, then use a sewing pattern to create your garment? You are using cut 'n sew!

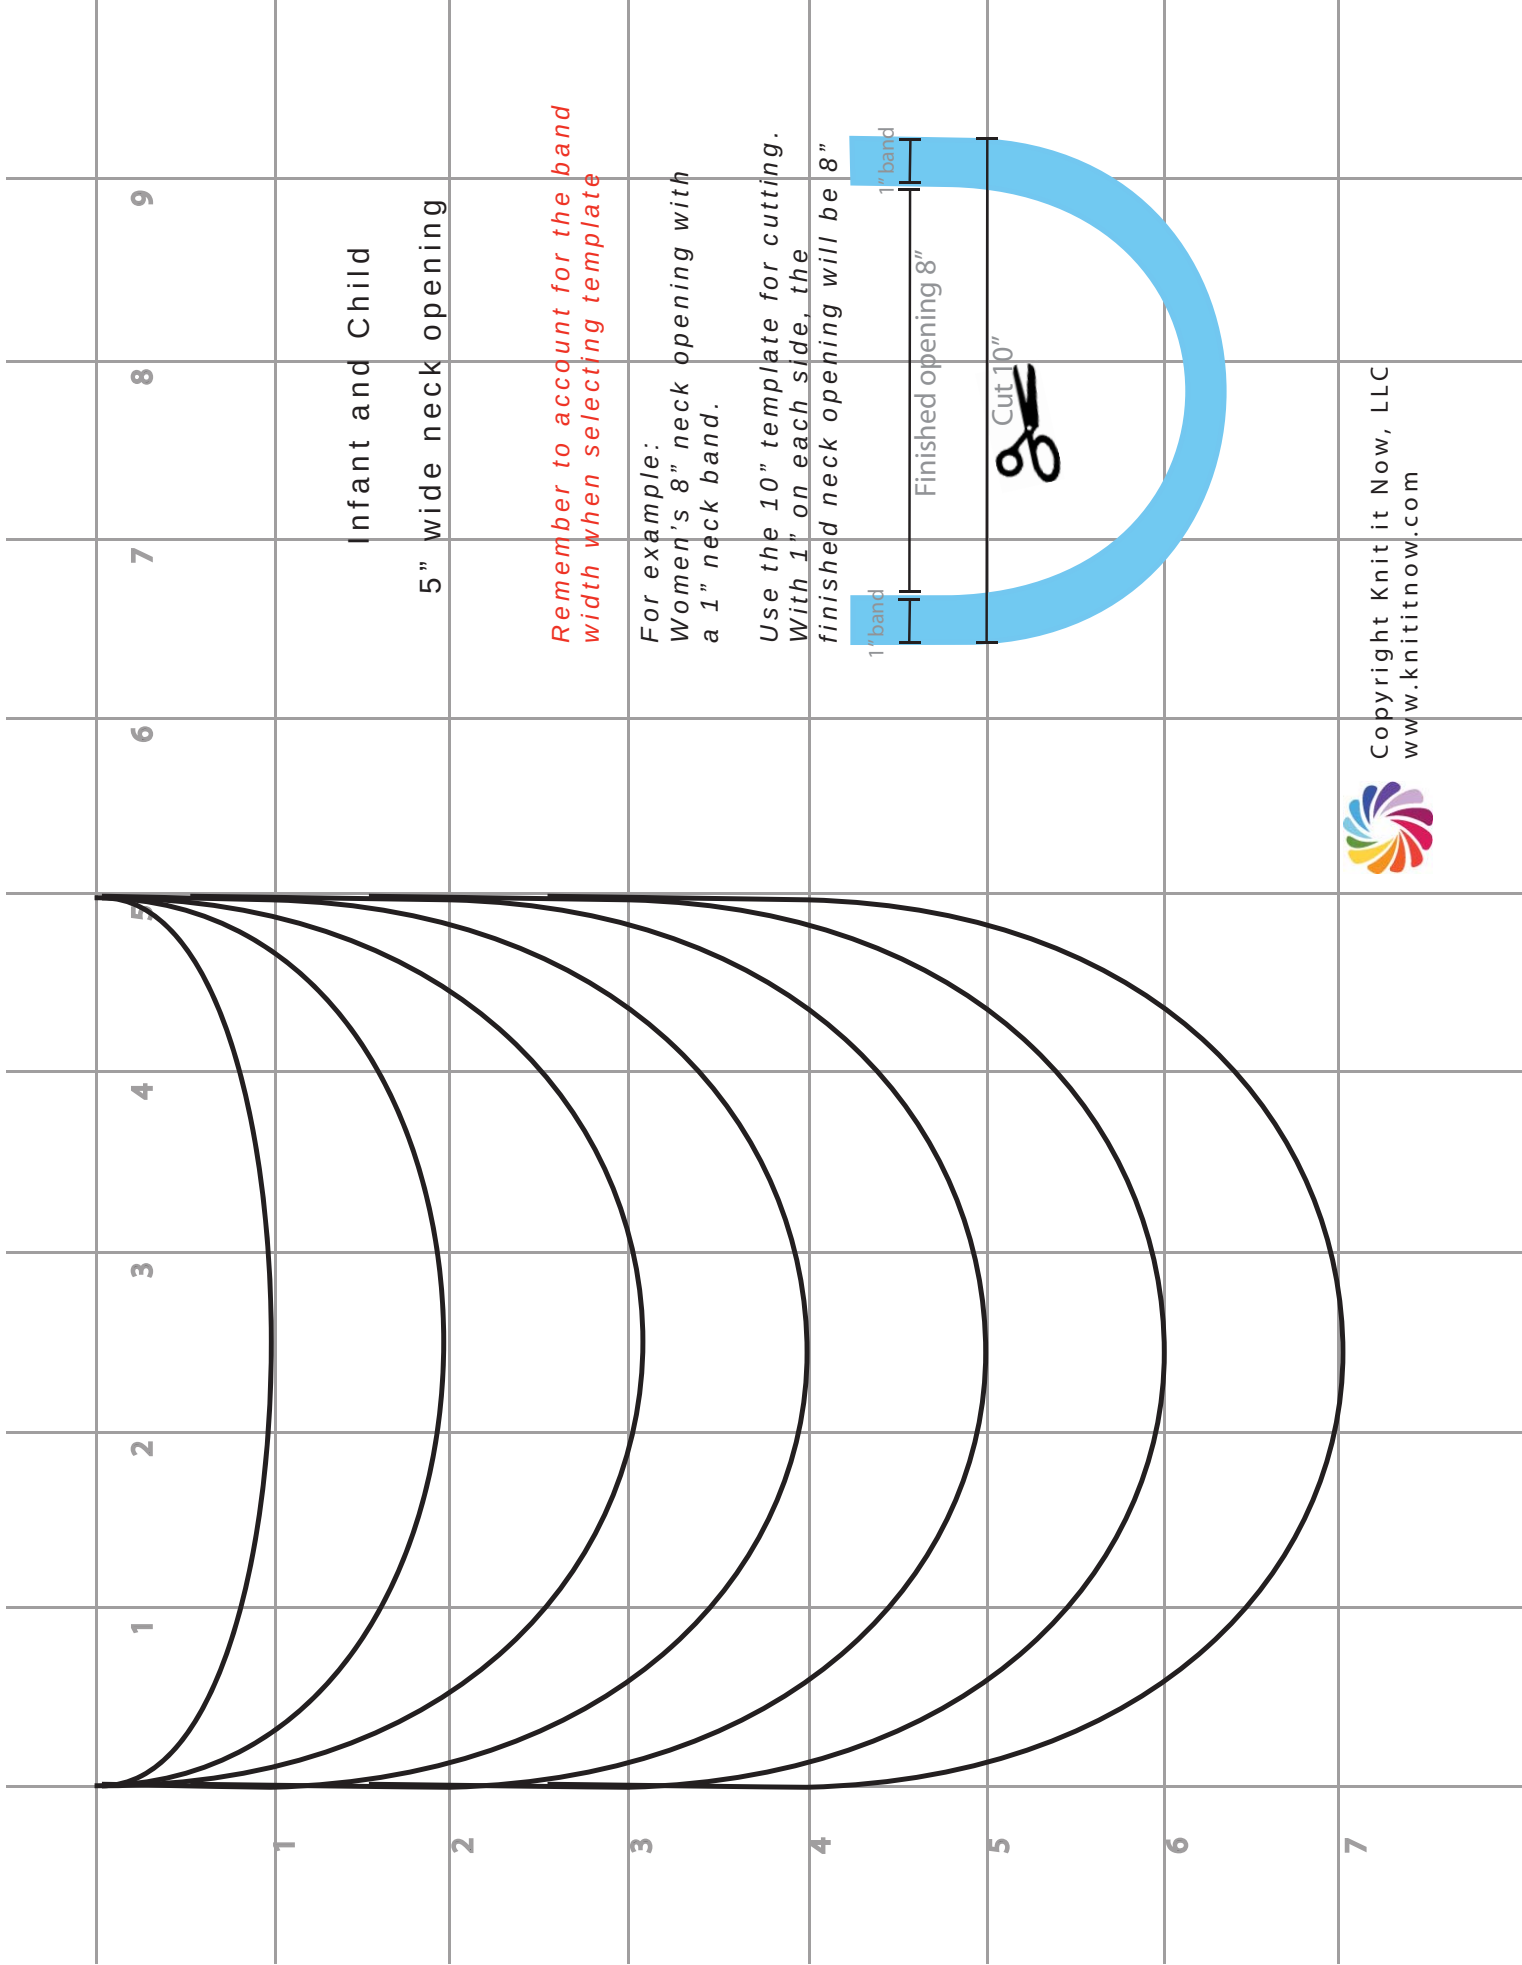

The techniques shown can be used for other shaped edges as well. For example, match a shaped armhole to a cut 'n sew neckline on a vest.

## Infant and Child

5" wide neck opening

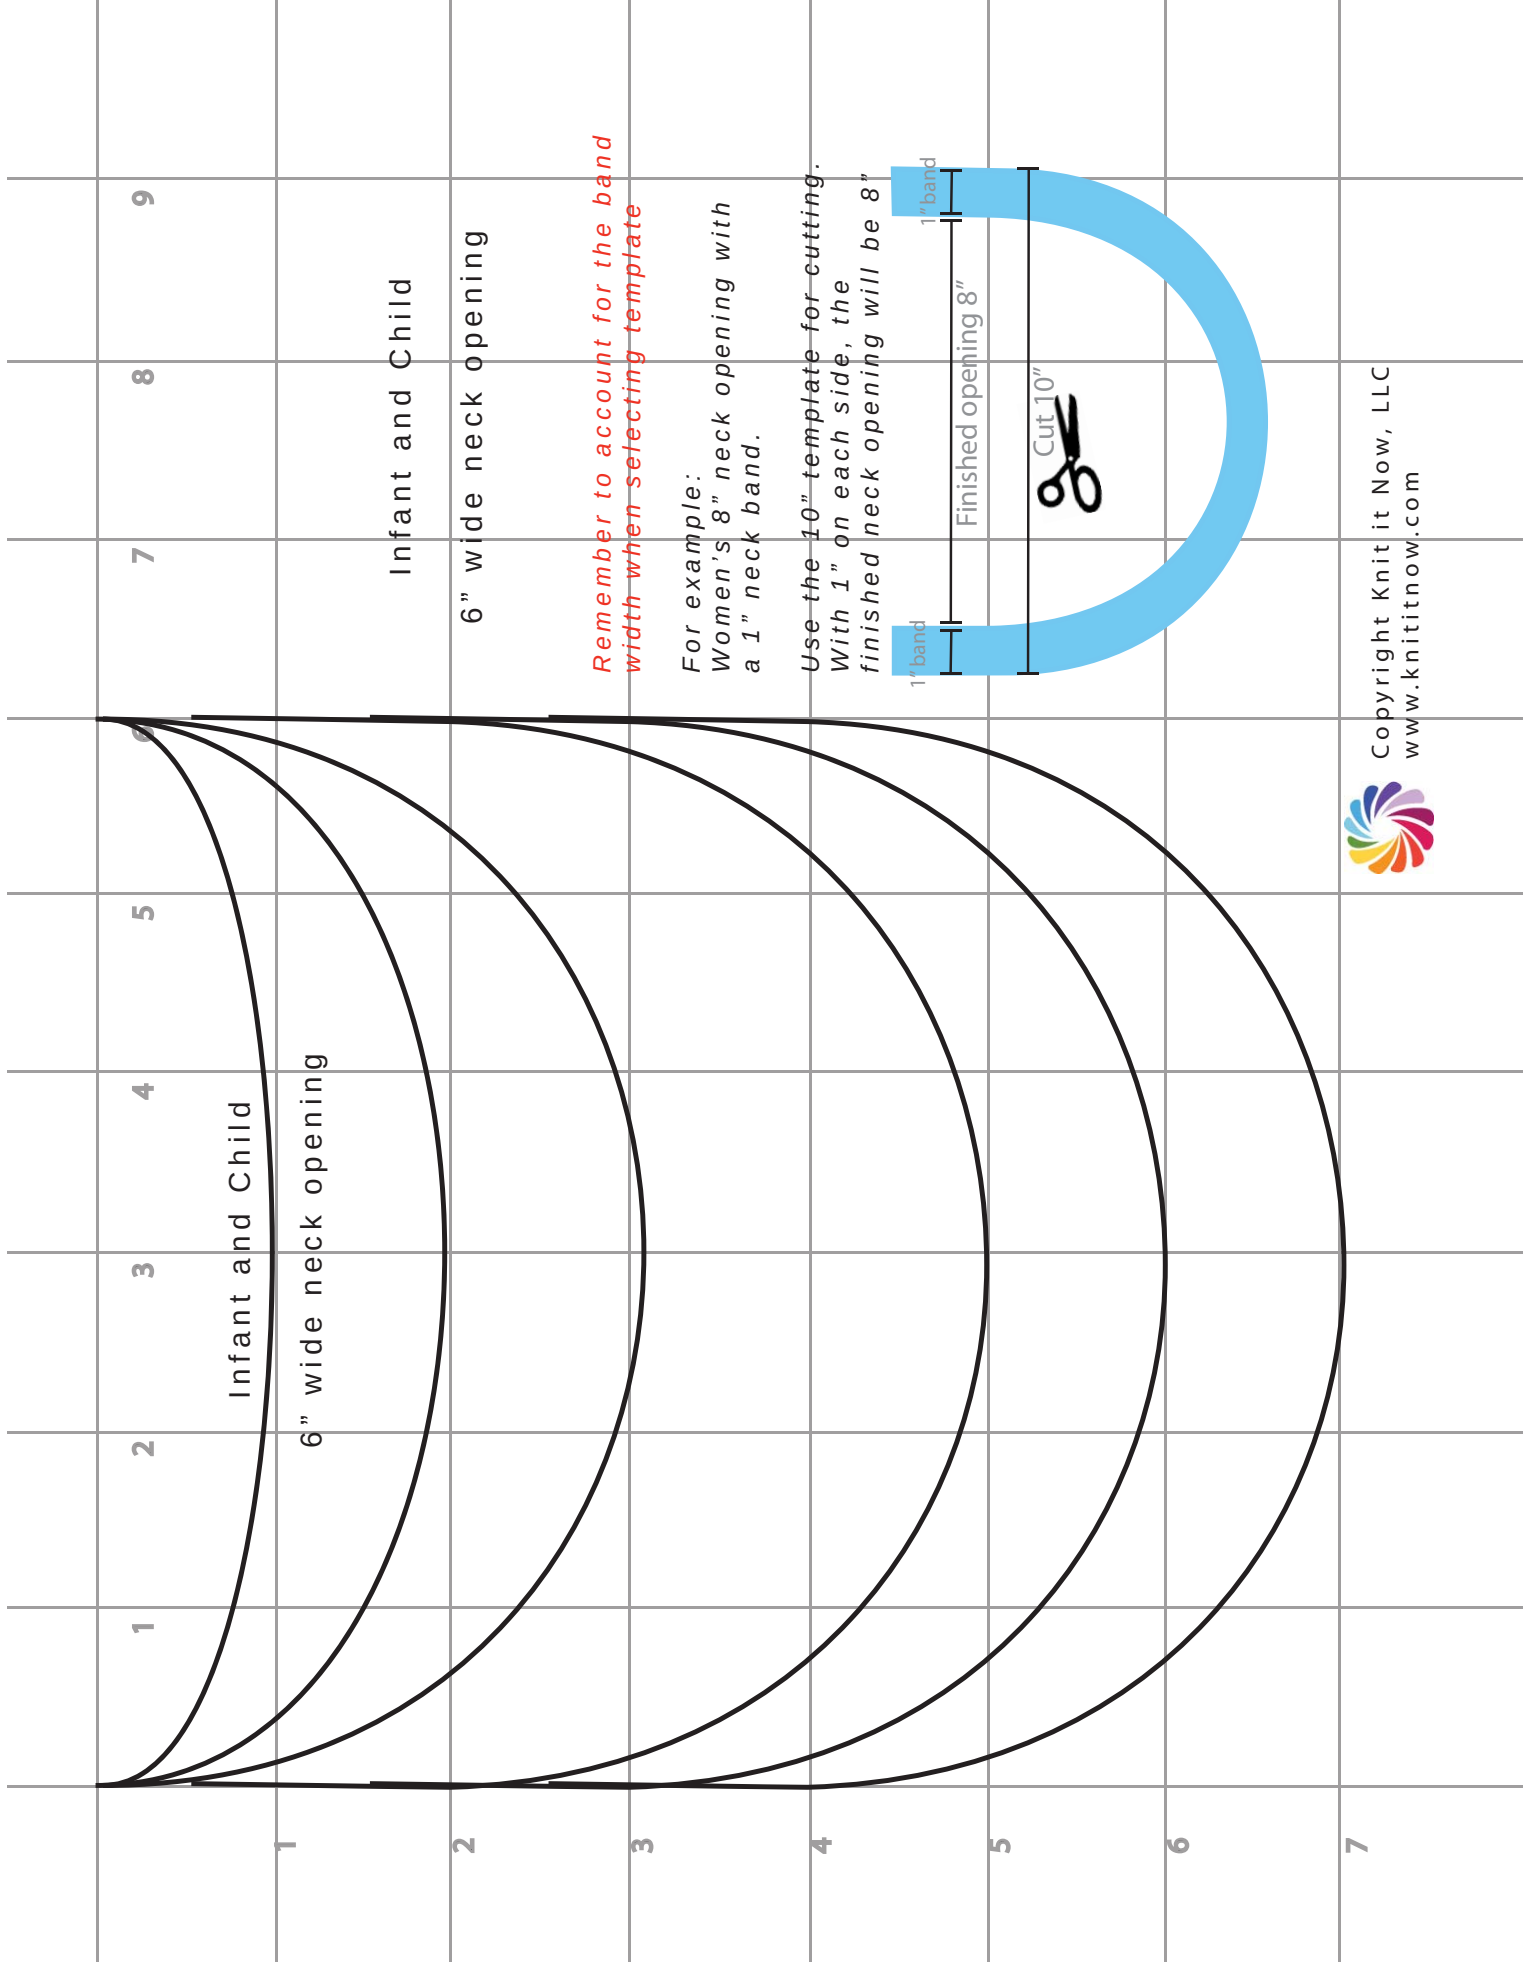

*Remember to account for the band width when selecting template*

*For example:  
Women's 8" neck opening with a 1" neck band.*

*Use the 10" template for cutting.  
With 1" on each side, the finished neck opening will be 8"*
