

LK-150 Quickstart

Test Yourself

Accurate swatching and accurate measuring are CRITICAL to your success as a machine knitter.

Test yourself with this exercise

6"

1. Knit a "proper" swatch
2. Let it rest, wash and block
3. Carefully measure and calculate your gauge
4. Calculate the stitches and rows for a 6" square

Cast on {Stitches per inch TIMES 6} stitches

Knit {Rows per inch TIMES 6} Rows

5. Knit a square according to your pattern calculations
6. Let it rest, wash and block
7. Does your square fit in this template?
Is it accurate?
If not, double check your gauge measurements and try again.
