

Slipped Flat Rib Ridges

Combine Flat rib with Slip Stitch

Flat rib is a Double bed technique with all needles on one bed knitting and SELECTED needles on the opposite bed in work

1. Set up for flat rib with every 4th needle in work on the ribber.
2. *Set ribber to slip
3. Knit 3 rows slipping the ribber stitches
4. Cancel Slip
5. Knit 1 row in flat rib (both beds knitting)*

NOTE:

If combining Slipped Flat Rib Ridges (or any double bed technique) with plain stockinette you MUST swatch both stitch patterns.

Notice the difference in width between the flat rib and the slipped flat rib swatch
